ADOPTION OF AMENDMENT:

NOW, THEREFORE, the TDP is hereby amended as follows:

Section 6.4 is amended and restated in its entirety as follows:

6.4 Secondary Exposure Claims. If a claimant alleges an asbestos-related disease resulting from exposure to an occupationally exposed person, such as a family member, the claimant must seek Individual Review of the claim pursuant to Section 6.2(b) above, unless the claim is for Disease Level VIII, Mesothelioma, in which case the claimant may seek either an Expedited Review or Individual Review of their claim. For all claims, the claimant with secondary exposure must establish that (a) the claimant is suffering from one of the eight Disease Levels described in Section 6.2(a)(3) above or an asbestos-related disease otherwise compensable under this TDP; (b) the occupationally exposed person would meet the exposure requirements under this TDP that would be applicable had the occupationally exposed person filed a direct claim against the Plan Trust; (c) the claimant's secondary exposure to the occupationally exposed person occurred within the same time frame as the occupationally exposed person's primary exposure; and (d) the claimant's secondary exposure was a cause of the claimed disease.

If a claimant alleges an asbestos-related disease other than Mesothelioma (Disease Level VIII), the claimant with secondary exposure must also establish that the claimant was exposed to the occupationally exposed person for a total period that is at least five times the exposure durations required for the occupationally exposed person so that the intensity and the duration of the claimant's secondary exposure are sufficient to establish an equivalent level of exposure required under this TDP for an occupationally exposed person with respect to the relevant Disease Level. For Disease Levels II – V and VII, this means the claimant with secondary exposure must establish they were exposed through the occupationally exposed person for at least: (i) 30 months of the occupationally exposed person's Congoleum Exposure prior to December 31, 1982; and (ii) 25 years of the occupationally exposed person's general asbestos exposure, all 25 years of which must have occurred prior to December 31, 1986.

All other liquidation and payment rights and limitations under this TDP shall be applicable to such claims.

IN WITNESS WHEREOF, the Plan Trustee, with the consent of the TAC and the FR as provided in the Congoleum Plan Trust Agreement, has executed this Thirteenth Amendment to the TDP effective as of the date first above written. This Thirteenth Amendment to the TDP may be executed in any number of counterparts, each of which shall constitute an original, and all of which together shall constitute one and the same instrument.
